

# Frequently Asked Questions

## CCTO Contact Tracing Tool

### Tracing and Testing Platforms:

#### COVID-19 Contact Tracing

##### CCTO Software

A web-hosted software program that the CCTO Team uses to work with people who have tested positive for COVID-19 and to help people who have been exposed to them to quarantine so that friends, neighbors, and loved ones can be protected.

1. **Case Investigators, Contact Tracers, and Regional Managers** will utilize this system to record and monitor day-to-day information about the symptoms and contacts of people with COVID-19 and those in contact with them.
2. **Residents** will submit daily questionnaires to record their updates while under monitoring.

#### COVID-19 Testing

##### Check My Symptoms Tool

A public website (*separate from CCTO*) where residents can input symptoms to check if they match certain criteria. Eligible residents will receive a list of nearby testing sites via email or text.

1. **Staff Facilitators** will utilize an app to confirm residents' submitted information.
2. **Staff Collectors** will utilize an app to link residents to their test samples.
3. **System Staff** will use this system to import residents' test results.
4. **Residents** will use a portal to register for tests and review results.

### Assessments

1. **If a contact missed an assessment from the day before, do they make up both when they are reached?**

When you reach the contact again after a period of unresponsive time, please input their retrospective answers in a **note** detailing this situation. As of right now, the system does not have the functionality to create assessments for the past or future as date fields are locked within the assessment itself.

2. **What should I do if someone wants a work note or email sent to their employer that they will be out of work due to quarantine/isolation?**

If the contact requests a note for their employer, advise them that you will email that to them.

3. **Are contacts required to complete all questions in the digital assessment?**

No, the digital assessment does not require a contact to complete all the available questions.

4. **How do I start a new assessment for a contact?**

In the Contacts Tab, select "Active Contacts", and choose "My Active Contacts." Double click on the contact to see their contact record. There should be four tabs at the top of their profile - click the "Assessments" tab. At the right of the screen, click "+New Assessment."

5. **In tracking my daily texted assessment, how do I verify that a contact has responded back with a completed assessment?**

Open the contact record and click the "Assessments" page below the contact's name. Choose the assessment you are looking to confirm and check the "Agreement" field. If the data shows "Yes, I will participate," then the contact

# Frequently Asked Questions

## CCTO Contact Tracing Tool

completed the assessment. If the field is **blank**, then the contact did not complete the assessment.

**6. My assessments are not sending via texts.**

Data managers are working with Microsoft to remedy this issue. Please gather as much data as possible and send the C# in your ticket to the data managers. Data managers can reach out to contacts for screen shots.

**7. My assessments are not being received or I'm unable to complete my assessments.**

Please submit a ticket to the Help Desk using this [link](#), and please list what type of operating software the contact/case is using (iPhone/Android) along with any information regarding attempts to resolve the issue between you and your contact/case.

### Assigning Contacts

**1. Can any tracer or supervisor reassign appointments or contacts?**

Yes, any tracer or supervisor can reassign appointments and contacts.

**2. How do I know who the case investigator is for the contact? How can I see who assigned me my contact?**

In a contact's profile, you can visit the tab "System Information" under their name and look for "Details" to see who created and most recently modified a contact; the case investigator may be the person who created the contact and assigned it to you.

**3. If County A has contacts residing in County B, how should the process of reassigning be handled?**

Please see the Out of Jurisdiction Contacts Job Aid [here](#) for more information.

**4. Will I be assigned a list of contacts?**

For LHD staff, whoever talked to the case patient may enter contacts and assign them to themselves or to others. For CCNC staff, contacts will be assigned by your local health department or you may be asked to enter contacts and assign them to yourself.

**5. Do I have to assign myself to contacts I input?**

No, once you input a contact, the contact is automatically assigned to you.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

### 6. How can I see my assigned contacts?

You can see all contacts that you are assigned to or that you have created and remain assigned to you in the “My Active Contacts” view.

### 7. Do I need to reassign a contact if I am not working a certain day? What is the process for reassigning contacts if I have time off?

Please see [here](#) for the job aid describing this process and defer to your supervisor’s guidance.

### 8. How do I change the “Assign” button from “Me” to “User or Team?”

Please utilize the [job aid](#). This information can be found on the top of the second page.

### 9. If we assign a task to another tracer, will this contact tracer receive an email to be notified they have new tasks?

The contact tracer will not get an email. Assigned tasks and appointments will appear in the Activities Tab and assigned contacts will appear in “My Active Contacts.”

### 10. How much time should elapse between a contact being assigned in CCTO and being called?

As a best practice, contacts should be called as soon as possible after they have been entered into the system to ensure that they have been advised on quarantine. Defer to your local guidance on follow-up.

## CCTO Interface

### 1. What are the links to the test and prod systems?

- Test: <https://dhhs-covid19-arias-uat.crm9.dynamics.com/apps/arias>

**Do not put real people in the test system**

- Prod: <https://dhhs-covid19-arias-prod.crm9.dynamics.com/apps/arias>

### 2. Is “Sandbox” the live version of CCTO, or is it just for training?

The Live (aka Production) environment does not have anything in the dark blue banner at the top of the application tool. The Sandbox (aka UAT) environment displays the word SANDBOX in the dark blue banner at the top of the application tool and represents the test environment and should only be used for training.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

Please review the guidance described at the beginning of the [August 18, 2020 training](#) for support.

**3. Is this interface being used for only COVID-19 contacts?**

Currently, this system is only to be used for tracing COVID-19 contacts.

**4. When will the soft phone function be released for county use? Am I able to make calls or send texts within CCTO?**

The details of this functionality are still being worked through. Communication will be sent out when and if the functionality becomes available. To communicate with a contact via phone, you will have to dial their phone number from a phone line.

**5. Is there a way to send messages to other contact tracers within the system?**

Currently, communication with tracers must be done outside the system.

**6. Is this system required for all counties to use?**

Please refer to the NC DHHS Contact Tracing Guidance (in the CD manual, [here](#)) which directs LHD staff to enter contact information in the CCTO tool.

**7. Is this platform secure and HIPAA compliant?**

The CCTO system, like the NC EDSS system, is used for public health surveillance and is compliant with **N.C.G.S. §130A-143** confidentiality requirements. It is NIST 800-53 R4 compliant per the North Carolina Department of Information Technology Statewide Information Security Manual. The Statewide Information Security Manual is the foundation for information technology security in North Carolina. It sets out the statewide information security standards required by N.C.G.S. §143B-1376, which directs the State Chief Information Officer (State CIO) to establish a statewide set of standards for information technology security to maximize the functionality, security, and interoperability of the State's distributed information technology assets. The portion of the NC DHHS, Division of Public Health, Epidemiology Section, Communicable Disease Branch that receives this information and controls CCTO is not covered by HIPAA, under NC DHHS's HIPAA Hybrid Entity designation. Therefore, HIPAA does not apply.

**8. What should I do if I can't log into CCTO?**

For successful login to CCTO, you must use your NCID credentials. It is best practice to use an incognito or private window to login to CCTO. If you are in a browser that has tabs with using your @carolinactc.org or other credentials, you

# Frequently Asked Questions

## CCTO Contact Tracing Tool

will get an error if using the same browser to login to CCTO. Therefore, always use an incognito window or private window for CCTO login.

Please review the troubleshooting described [in this job aid](#) or at the beginning of the [August 18, 2020 training](#) for support. For all access-related issues beyond what is described here, please contact your local NCID admin. They will then route you to the appropriate party if escalation is required. Your NCID admin can be identified through this [link](#).

**9. How can I change my time zone?**

Currently, the time zone must be changed manually by each individual tracer in their settings. Guidance on this process can be found in the “CCTO Onboarding Reference” job aid [here](#).

**10. Is there a way to identify duplicate entries into the CCTO system?**

Duplication is automatically detected by the system, and you will receive a warning if a contact is a potential duplicate. Review the [Handling Duplicates Job Aid](#) for more information.

**11. Does the CCTO Tool run on mobile or tablet?**

The CCTO Tool should be functional on any device that supports a web browser.

**12. What actions can a CCTO administrator perform that a regular user cannot?  
How can I check if I am an admin in CCTO?**

The primary role of the LHD CCTO administrator is to allow the upload and export of contacts in bulk format to CCTO. Please check with your local NCID administrator to see if you have admin privileges.

**13. Is it possible to export Excel reports for tracking purposes?**

Yes; however, you must be a CCTO Administrator to use this function. Reach out to your regional supervisor or LHD to identify your CCTO Administrator or team members who have these permissions.

**14. Is there a way to see all the contacts in my county only?**

You can filter any contacts view by LHD to see LHD contacts if a county view has not been shared with you. Please see [here](#) for the “Quick Reference for Supervisors” job aid describing the aforementioned process.

**15. How can I remove a view from my dropdown list?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

Go to the "Create View" button at the upper right of your screen and select "Saved Views" at the top left of the box. You can then select a view and deactivate it (hide it from the drop down) or delete it permanently by clicking the buttons at the top above the word "Records."

**16. Is it possible to search for contacts by NC COVID #?**

Yes, this is a searchable field in the search bar at the top right of the Contacts Tab.

**17. Will there ever be a communication bridge for CCTO to communicate or transfer information to NCCOVID?**

That is something we are looking at! Nothing to announce, but we are looking into it for the near future.

### Closing Out Contacts

**1. How do I know which Final Monitoring Outcome to select?**

Please review the detailed guidance in the [Closing Out a Contact Job Aid](#) and review questions provided in the September 1<sup>st</sup> [live training and materials](#).

**2. What Final Monitoring Outcome should be used for known incorrect or missing phone numbers?**

Contacts with known incorrect or missing phone numbers who are only logged for recordkeeping purposes should be classified as "Other" because there is no expectation that this individual can be monitored in CCTO with the information provided. "Other" is the proper designation for contacts who will not be monitored within CCTO. A non-responsive contact whose number is not known to be wrong is missing should be classified as "Never Reached." Defer to the [Closing Out a Contact Job Aid](#) for guidance.

**3. When should I use the "Other" option in Final Monitoring Outcome?**

"Other" is the proper FMO for contacts who will not be monitored in CCTO. This may contact those who have already become cases and will not be monitored in the Tool. Defer to the [Closing Out a Contact Job Aid](#) for guidance.

**4. How do we remove a contact from the active listing?**

To remove a contact from the active listing, click on the contact or the ✓ on the left hand of the "My Active Contacts" screen. Then click "Deactivate" in the tool

# Frequently Asked Questions

## CCTO Contact Tracing Tool

bar located at the top. Then click “Deactivate” again. This contact is now in your “My Inactive Contacts” view.

5. **Is there a way to close out all the associated appointment reminders when closing out a contact or do these each need to be closed out manually?**

Each appointment reminder will have to be closed out manually. This can be done either by going into the contacts page or going in to the “My Activities” view, filtering on the contact, and using the checkmarks to remove the appointment reminder.

6. **Is a contact automatically notified when their case is closed? Do I need to trigger something?**

Automated digital outreach stops when you set “Begin Monitoring” to “No” and “Monitoring” to “Monitoring Ended,” but there is no automatic notification to your contact that monitoring has ended. You should speak with them to confirm they have successfully concluded quarantine.

7. **If a contact opts out of monitoring, should the contact profile be deactivated?**

Yes. You need to make sure to follow all steps to close out a contact ([See Closing out a Contact Job Aid in the CDM](#)). Please use the following steps:

- Step 1: Change “Begin Monitoring” to “No”
- Step 2: Change “Monitoring Status” to “Opted Out - All Monitoring”
- Step 3: Enter “Final Monitoring Outcome” value as “Refused”

Note: If you are part of CCTC Staff, you need to check with your regional supervisor to ensure you are compliant with protocol specific to your Health Department.

8. **When should I select “State OOJ - Notification Completed?”**

You should not need to touch this button. “State OOJ” refers to a contact who is outside of the state of North Carolina. If you encounter this situation, review the State OOJ process listed [here](#) for handling out-of-state contacts.

9. **What if you receive a contact at the end of the monitoring period and their initial assessment is their final?**

A contact whose initial assessment is also their final is “Partially Complete.” A “Fully Complete” individual has had time to take quarantine action on their exposure, and so at least two assessments must be logged. Please review the [Closing Out Contacts Job Aid](#) for assistance.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

### 10. What if I receive a contact after their monitoring period is over?

If an assigned contact's monitoring period has already ended, you may treat this contact as "Never Reached" for State purposes; however, you should defer to your local guidance on how specifically you should close this case and whom you may need to notify.

### 11. Can you get a final assessment done 3-4 days after their monitoring period is over?

To be considered "Fully Complete," a final assessment must be on the final day of quarantine or within the two days **following** this date. This allows us to know that the individual has not developed any symptoms throughout the 14 days following exposure. If a contact's last assessment is before the final day of quarantine, they are considered "Partially Complete." Please review the [Closing Out Contacts Job Aid](#) for assistance.

### 12. What if I reach a contact initially, but the call drops after they were told of exposure and before they explicitly rejected or accepted monitoring, and I am not able to reach them again?

If a contact is informed of exposure, they should be marked "Refused" rather than "Never Reached." Please review the [Closing Out Contacts Job Aid](#) for assistance.

### 13. What are the automatic field updates that occur when a contact is deactivated?

We encourage you to continue updating these fields in real time as part of your normal workflow; however, the following updates will now occur automatically when a contact is deactivated:

- "Begin Monitoring" will be set to "No"
- "Monitoring Status" will be set to "Monitoring Ended" (if it was left on "Monitoring Paused" or "Monitoring"),
- If "Tested" has been left *blank* and there is information in "Test Result," "Tested?" will be set to "Yes"
- If "Final Monitoring outcome" is set to "Contact who became a case," "Contact or Case Patient" will be set to "Contact who became a case"

### 14. Is it necessary to make a final call on the last day of quarantine/monitoring when the contact chose digital monitoring?

Your contact must complete a final assessment at the end of quarantine. The State also recommends you call to close out all contacts (even those who opt for

# Frequently Asked Questions

## CCTO Contact Tracing Tool

digital monitoring) as a best practice; however, defer to your local guidance on call frequency.

15. **My county monitors cases in CCTO. Should these cases' FMOs always be "Tested Positive - Became Case?"**

Currently, the system is built first and foremost to monitor contacts, but we know some counties monitor cases in the tool, which is fine! From the state level, the FMOs (or any data from the cases) are not being analyzed because the Tool is being used in a variety of ways. There is not a state directive on FMO for cases; however, please note that if someone starts as a monitored contact and then tests positive and becomes a case after being a contact in the system first, their FMO should always be "Tested Positive - Became Case."

### Digital Exposure Notification

1. **If both email address and phone number are filled in, will the contact receive both an email and a text notification?**

For a digital exposure notification only, you will receive both an email and a text if both fields have been filled out. This does not apply to normal digital outreach, which is decided by Preferred Method of Contact.

2. **Do digital exposure notifications only send in English?**

The portal can send outreach in both English and Spanish depending on Preferred Language.

3. **If no preferred language is listed, is there a way for the contact to select a language on a digital exposure notification?**

There is a button at the top right of the digital portal allowing the contact to toggle English or Spanish.

4. **Is System First Outreach triggered by a digital exposure notification being sent out?**

System First Outreach will be triggered based on the notification.

5. **Is there a way to see if a text or email has bounced for a digital exposure notification?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

At the moment we are unable to see if a notification has bounced, however, we are working on this.

6. **Does a contact's name on a digital exposure notification have to be exactly and correctly spelled in order for the system to process it?**

Names must be exact and are case-sensitive for contact profiles to update automatically. Please see the System Updates Job Aid for more information on handling these mismatches.

7. **Are there any groups that will be excluded from digital case notification (aside from minors)?**

No, as long as they have provided the minimum required data (First and Last name, County, State, Email or Phone number.)

8. **Can positive cases opt-in to digital monitoring?**

When cases receive a notification, they do not have the option to opt in to digital monitoring. However, they can be manually given this option: you or your staff would need to go into their record and turn on monitoring for them, which would start their monitoring process.

### Digital Outreach

1. **How do I send automated digital outreach with assessment links?**

Ensure your contact's DOB, phone number/email, and preferred method of contact have all been correctly indicated. Then, if "Monitoring Status" is set to "Monitoring," switching "Begin Monitoring?" to "Yes" will send digital outreach. This will continue *daily* until you set "Begin Monitoring?" to "No."

2. **Does Timeline/Activities impact digital outreach?**

No. Timeline/Activities only shows, and logs items created manually by you and has no link to automated digital outreach. To view *copies* of automated texts and email reminders sent by the system, click the "All Activities" Page at the top of your contact's profile.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

- 3. If you were to reach the contact by phone and they want to do the initial assessment via phone would you edit the one that was already sent, or would you add a new initial assessment?**

Currently, you can fill in the initial assessment. Defer to your local guidance if needed.

- 4. How do I send an email from the Tool?**

You can click on the email icon next to the field where you are able to input the contact's email address. Once the icon is clicked, a blank email with a pre-populated link will pop up on your screen. This prompt will utilize your native email. We ask that you clear the link before sending the email to the contact.

- 5. When should I send an email that is encrypted?**

You Emails should be encrypted when they contain PHI. An example of when encryption is necessary is when you are email work notes or quarantine guidance to a contact or case. The encryption process is handle by DHHS. Please submit a ticket to the DHHS Help Desk for guidance/support utilizing this [link](#).

- 6. What should we do if a contact refuses to answer our questions?**

Reach out to your supervisor for their protocol in this situation.

- 7. Is there a way that we can verify that the contact receives the automated text or email sent by the system as a daily reminder?**

Copies of automatic outreach sent will appear in "All Activities" page for your reference.

- 8. Is there a way to incorporate guidance for the auto-generated response for the contact to be able to verify the message is not spam?**

Not yet. We plan in the future to add a verification phone number to the email.

- 9. If a contact does not initially fill out the assessment digitally, can they respond digitally later?**

Yes. Contacts have access to submit digital assessments if they have provided an email or mobile phone number and you have set "Begin Monitoring?" to "Yes" and updated "Preferred Method of Contact." Clicking the link, they receive will allow the contact to submit an assessment at any time. The system will send a new email/text every day unless you set "Begin Monitoring" to "No".

# Frequently Asked Questions

## CCTO Contact Tracing Tool

10. **If a contact agrees to digital assessment and monitoring, do I need to send this every day? Is digital outreach automated?**

Text and email reminders to your contact are automatic if you have input a date of birth, selected "Begin Monitoring?" to "Yes," provided an email or mobile phone, and indicated "Preferred Method of Contact."

11. **How do I turn off daily emails or texts to a contact?**

Turn off digital outreach by setting "Begin Monitoring?" to "No" and/or updating "Preferred Method of Contact" if appropriate.

12. **Can I reach out digitally if a contact has missed their digital assessment?**

You may reach out to a contact by text or email according to their preference if a contact has missed digital assessment. Best practice is that you speak to every contact on the phone at least one time.

13. **When should I call if I see a contact has missed their digital assessment?**

Call your contact as a best practice when you begin initial monitoring. Otherwise, local protocol can drive when you next reach out. Best practice is that all contacts send information or is contacted daily.

14. **Do I need to call contacts who have indicated a digital contact preference?**

You do not need to call contacts who have indicated they only wish to be reached digitally if they respond to the digital reach out; however, it is a best practice to attempt to establish an initial phone contact with each contact.

15. **Is there is a way to keep track of all automated outreach?**

Visit the "All Activities" Page on a contact's profile to review all automated texts and emails sent out.

16. **Is there reporting that can be run (daily or a few times a week) as a safety net to make sure no contacts or follow ups were missed? Is there a way for us to do this for county specific contacts?**

Sorting by "Last Assessment Date" will let you see who needs to be contacted, and you can add a filter for "Local Health Department" as well. Please see guidance on this process in the "Quick Reference for Supervisors" job aid [here](#). There are some situations where the last assessment date is empty even though a recent assessment has been created. Therefore, to use the process, you would need to fill the prior agreement fields.

17. **Is the SMS functionality only compatible with government phones?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

No, this function is available for all phones.

18. **What is the process to send educational information to contacts if their email/number has been collected?**

For digital information to be sent out to the contact, their email must be inputted in the system. The tracer should confirm with the contact their comfort with being sent educational COVID-19 related material/guidance. You can then click the email option within the contact page to send an email - note that this email will be sent via whichever email the tracer uses to log in to the system. No secure or sensitive information should be sent via email.

19. **How long are follow-up attempts made to non-compliant contacts who are not replying to daily monitoring requests via email, text or phone before the case is closed? Is the case closed once quarantine ends?**

Please follow your county's guidance on when to close the case.

20. **Can you customize the message by County to send out to each LHD?**

As of right now, there is no known functionality to send specific messages by counties or LHD.

21. **Does a contact have to have a NC EDSS/NC COVID number to trigger the digital outreach?**

NC EDSS/COVID Event ID is not required for the digital outreach to occur. Only a DOB and email or mobile phone number are necessary.

22. **I have several contacts who are minors and have the same parents. The parents would like to fill out surveys for them using the same email. Are they able to fill out multiple surveys using the same email, but verifying different birthdays?**

Each family member should receive an email with an assessment link, and these may be sent to the same email address. The parents can complete the assessments for each child at unique links with each child's DOB. Please review the Assessments Tab to ensure that all assessments have been completed and loaded successfully in CCTO.

23. **What is the difference between "Opted out - Digital Monitoring" and "Opted Out - All Monitoring"?**

"Opted Out - Digital Monitoring" is not an option you should ever turn on. The system will turn this on to alert you that an individual has opted out of text or email outreach. When you see it, you should return it to "Monitoring," reset

# Frequently Asked Questions

## CCTO Contact Tracing Tool

preferred method of contact to "Phone Call," and call your contact to confirm how they wish to proceed. If a contact opts out completely, you may then change "Monitoring Status" to "Opted Out - All Monitoring," "Final Monitoring Outcome" to "Refused," and close/deactivate the contact per your local protocol.

24. **My local guidance has been to save duplicates automatically. Should I ask my team lead to review the process for duplicates?**

That's what you should do! Please review the [job aid](#). We want to make use of the "Is Duplicate" FMO and make sure that when contact tracers find duplicates, they take the time to review and determine whether one of them in fact, is a duplicate, so that it can be assigned and cleaned up later.

### Email

1. **I am unable to access my CarolinaCTC email.**

Submit a ticket using this [link](#). The password is "cctc".

### Field Visit Outreach

4. **How will the resources notification work if a contact is deemed to need additional resources (thermometer, food, medication, etc.)? How is the local health department notified?**

When a contact enters into the system or notifies the tracer that they require additional resources, it is the tracer's responsibility to then relay that need/request to the local health department. If the tracer is filling out the assessment for the contact, the tracer should input these needs in the notes section of the form and reach out to the local health departments to notify them of the need.

2. **What if the contact does not have any contact information listed?**

As a first step, you would need to reach out to the case investigator to inquire if they have any further information on contact information for the contact.

### Flow from NC COVID into CCTO

1. **Do the majority of people working in CCTO have access to NC COVID?**

No, they do not! While there are many who have access to both, the majority of CCTO users do not have that access. The DOB will be there to help verify that

# Frequently Asked Questions

## CCTO Contact Tracing Tool

this is the correct person without having to go into NC COVID. There are also call center staff who can help further verify, if needed.

- 2. Can cases be deactivated as they flow over to CCTO from NC COVID, or will they need to be kept active?**

Cases can be deactivated if needed. From the state's perspective, these cases are being moved to the tool solely to be able to use the email and text notification functionality, but what is done with them afterwards is up to your discretion.

- 3. What are the minimum data requirements for a record to flow into CCTO from NC COVID?**

These are the minimum requirements for a record to flow over: positive lab date, first name, last name, state, county, email or phone.

- 4. How will NC COVID assign OOJ contacts and contacts with labeled owner teams?**

If you enter contacts into NC COVID with the owner team listed, they will be assigned to the correct county. If contacts are entered in as OOJ, they will automatically be assigned to a new space specifically for out-of-jurisdiction contacts.

- 5. Can households be entered in through NC COVID?**

There is no way for households to be created in NC COVID, but there is a notes section in NC COVID that will transfer over, and you can input the household as the first item into the notes box.

### Households

- 1. How should info be entered for a Household if the last name is already in use for another Household?**

You will be notified of a duplicate entry if you attempt to give two households the same name. To avoid confusion, you can include the primary contact's name. For example, "(John) Smith Household" instead of "Smith Household" can help to differentiate across Smith Households in the tool. Defer to your local guidance on how to differentiate between similarly named households.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

2. **How should I handle Households that include contacts with different last names?**

Households are intended for your convenience and not for tracking purposes on a state level, so you can defer to your supervisor and your local guidance on what suits your workflow best. As an example, you could enter multiple last names with slashes between (for example: "Smith / Plant Household") or utilize the primary contact's name (for example: "John Smith Household").

3. **Can tracers who don't enter contacts create a Household?**

Yes. Ideally, tracers who enter contacts should be the ones responsible for creating Households, but you can create a Household even if you do not normally enter contacts.

4. **How do I deactivate a household and family members within a household? Do I need to deactivate a household if all members have already been deactivated?**

Contacts and households deactivate separately:

- Step 1: Deactivate each contact within the household (as you normally would)
- Step 2: Once all household members are deactivated, you should manually deactivate the Household record. Currently, this is not required, as there is no state-level protocol around this, but you are encouraged to do so to help organize your work. Please remember that deactivating contacts in the household should be your priority.

5. **When dealing with a family of contacts, can one person complete the assessments for everyone in the home? Can just one assessment be completed?**

Individual contacts must always have individual assessments, so you cannot complete one assessment for a whole household. Assessments may, however, be completed by proxy for household members. For example, a mother may respond on behalf of her child; however, the child's assessment should be logged in the child's profile, not the mother's (if one exists). You can indicate the household member to whom you are speaking in the "Primary Contact" field on a household profile, and you can indicate if a contact requires a proxy by turning on the "Requires Proxy" toggle on their contact profile.

6. **What happens if someone in a Contact's household tests positive and does not exist in CCTO?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

This could be because positive cases live in another state system, called NC COVID (COVID instance of NC EDSS). If this happens, talk to your regional supervisor to escalate and determine what additional steps are needed. It will likely be necessary to follow up, as this will affect a Contact's most recent exposure date and quarantine period (if they are living with/ in the same household as a positive case).

**7. How can I prevent adding duplicate households?**

Just as can happen when you enter contacts, you may receive a duplication warning when entering a household. It's a best practice to review these suggested duplicates and confirm that you are entering a new household.

**8. What should I do if there is a grandparent in a Household?**

Utilize the option under "Household Relationship" that makes the most sense for your situation. This may be "Additional Household Adult (not associated with child)" if the individual is not involved with assessments for any children. Additionally, you can use the "Notes" functionality to make note of grandparents in a household. Always defer to your local guidance on what documentation may be necessary.

**9. Should I retroactively create households for contacts?**

This is not required, but if it is easier to create a household with Contacts in the system during their monitoring period, feel free to do so.

**10. How do I reassign a household? Should I reassign all the contacts, too?**

From your household profile, reassign the household, and all the contacts should be reassigned with the household automatically.

**11. Why does the system think my new contact/household member is a duplicate? What should I do?**

The duplicate detection in CCTO is currently very sensitive to similar names, birth dates, and phone numbers/emails. Generally, you can ignore these warnings when adding household members. Review the [Handling Duplicates Job Aid](#) for more information.

**12. What if my household members have different contact information/source patient information?**

Household members are not required to share any information, and you can edit the information of any member during or after the contact creation process without impacting the household profile.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

### 13. How do I enter a note in Household and have it show on all members of the household?

This is not currently a function available in CCTO.

### 14. When working in a household - the other family members often come up as duplicates - every time you save anything on the contact you are working on?

We are looking at eliminating the duplicate functionality to improve that so you won't get the duplicate warning for households/will greatly reduce this.

## Inputting Contacts

### 1. What are monitoring events? Why can contacts have more than one?

Each contact profile represents one monitoring event. A monitoring event is a single, continuous monitoring period following exposure to COVID-19. This can include several exposures and extend beyond 14 days if monitoring is continuous. When a contact concludes monitoring, their profile (or monitoring event) is closed and deactivated. If a contact is re-exposed following this closure, their previous monitoring event will be *cloned* to create a new profile with the same C# and basic contact information but different exposure details. There is no limit on the number of monitoring events that one contact can have, but a contact can only have one active monitoring event at a time.

### 2. As a case investigator, how do I know if my contact has a pre-existing monitoring event?

The system's duplicate detection will alert you if you attempt to save a contact with information that is like that of an existing contact. Additionally, before entering a contact, you should search an identifying piece of information (such as a phone number) in the "All Contacts" view. If a contact has a pre-existing *deactivated* monitoring event, you may begin the cloning process. If a contact has an active monitoring event, you may incorporate the exposure into their existing monitoring event. Review the [Handling Duplicates Job Aid](#).

### 3. How do we address minors and receiving their information?

If the contact is under 18 years of age, the contact tracer will need to speak to the legal guardian. The contact tracer must ask the legal guardian if they can speak to the minor directly or if they would prefer to stay on the line. Minors can reply digitally or over the phone once a parent has given permission. Permission should be noted in the minor contact record with the date it was given, and the "Is Minor" toggle should be selected.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

**4. Do you need to get a minor's permission for a parent to speak on their behalf?**

If the minor is <13, no, but if the minor is from the age of 13-18, yes. As a best practice, it is preferred that you speak to a parent on a minor's behalf if they are under age 13.

**5. We have partners at our hospitals and city/county who are doing contact tracing for those employees through their employee health. Do these contacts have to be put in the system?**

Yes, these contacts should still be input into the system and have 14 days of follow-up documented. This is the only way to generate local and statewide reporting on how many contacts are notified per case.

**6. Is there a standardization for inputs such as phone calls, notes, or tasks?**

Please consult the Timeline/Activities micro-training [materials](#) or [video](#) (scroll to *CCTO User Micro-Trainings*) and defer to your local guidance on formatting these items.

**7. Does telephone contact need to be initiated with the contact prior to entering CCTO? Is the DOB necessary for even the phone outreach options?**

Telephone contact is not needed prior to the contact being inputted into the tool. The DOB is not necessary for phone outreach. The contact tracer can reach out via phone to the contact and input assessment information that way as well.

**8. How would we upload contacts that we are already monitoring as a batch?**

Email the help desk with this list and they will be able to help upload that list through contact with a data manager.

**9. What is the process for if a contact opts out and then becomes a contact for another person? Will we be able to see that they have already opted out?**

If a contact tracer tries to enter the contact who opted out in to the CCTO tool again, a duplicate warning message would pop up. If you visit this original record, you will be able to see that they have opted out. You are also able to search the name of the contact who has opted out in the system to gather this information.

**10. Will all critical information, such as NC EDSS and Last Date of Exposure, information be provided to me? If not, how do I find it?**

All critical information should be provided to you by the Case Investigator. If not, review the "System Information" tab on a contact's profile and visit "Details" to see who created the contact and follow-up.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

**11. Is there a way to document that someone has died?**

Please include this as a note in “Timeline/Activities” and stay tuned for forthcoming functionality.

**12. Is age auto-filled or does it require manual calculation?**

“Calculated Age” will automatically populate based on date of birth, Manual Age” can be used to type an age number if the contact does not provide you a full date of birth.

**13. Can the case be entered initially without DOB? Can this contact be entered without DOB for follow up by the tracer?**

Yes, contacts can be entered without a DOB. You cannot send the text or email without a DOB. The only strictly required variables are first name, last name, state, and county and you can use “Unk” or “Unknown” if a first or last name is not known.

**14. Are all fields required? Will the system alert me if I miss a critical field?**

The business-required fields required by the state for data tracking purposes are marked with blue plus signs (+), and the fields required by the system to create profiles are marked with red asterisks (\*). The system will only alert you if you miss system-required fields (first name, last name, state, and county), so take special care to ensure all the business-required fields are populated correctly and fully. For any unknown fields, please input the proxy “UNK” and update the information as it becomes available.

**15. Is there a way to retrieve an accidentally deleted contact in ARIAS?**

Currently, there is not a way to recover a deleted contact.

**16. If a positive case has a contact that has been tested but no results back yet, does that contact need to go into the CCTO tool?**

Yes, and this testing information can be included in “Testing Details.”

**17. If a positive case has a contact that is symptomatic and is scheduled for testing or even opts out of testing, do we need to put that symptomatic person in CCTO?**

Please continue to monitor the contact until the results come back. If the results come back positive, then close out the contacts case, if not positive, continue to monitor throughout the duration of the monitoring timeframe. If the contact opts out, then enter the contact and indicate that the contact has opted out.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

18. **If a contact tracer in County A is notified about a close contact in County B, does the contact tracer cross county lines?**

A contact of a case should be transferred to the county where the contact resides. Note that we do not enter close contacts of contacts, only cases.

19. **Is there a template for uploading close contacts?**

For uploading close contacts, please utilize the appropriate job aid, linked [here](#).

20. **Should case investigators be the only ones to clone contacts?**

Most often! The person who clones the contact will typically be the person who enters new contacts into the system. You can think of cloning as entering a new monitoring event for an existing contact.

21. **If a contact has a previously deactivated profile, should they be cloned with a new monitoring event or reactivated?**

If they have a previously deactivated profile but a new exposure, then this should be a new monitoring event created through cloning. If the exposure is more than two weeks in the past, will not result in any new monitoring, and applies to a previous monitoring period, then you can reactivate the profile, add a second exposure, and save the contact and deactivate again. Please see the job aids on handling [duplicates](#) and [multiple exposures](#) for details.

### Language Support

1. **How should I note a contact's preferred language?**

"Preferred Language" can be toggled to "English," "Spanish," or "Other." If you select "Other," please input the name of the language in "Other Language."

2. **Can I send a digital assessment in another language?**

If preferred language is set to Spanish, digital outreach and assessments will be sent in Spanish. Contacts can also make this change themselves from within the assessment. Currently, English and Spanish are the only languages supported.

3. **How can I get an interpreter if needed?**

It is important to communicate this need to your local health department as each one has a different solution and procedure.

4. **How should I note if a contact has used someone as a translator?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

This can be indicated through the notes section.

### Monitoring Contacts

#### 1. Who should be monitored or traced?

This specific contact tracing program is to be used for individuals who have been in contact with someone that has tested positive within the last 14 days (i.e. being within 6 feet of someone for a prolonged period of 15 minutes or more).

#### 2. How is the monitoring process triggered and how can I know to follow up?

To trigger the digital monitoring process, you will first need to ensure that all contact information, including "Preferred Method of Contact," and "Date of Birth" have been properly populated. Then, select "Yes" in "Begin Monitoring?" (if directed by local protocol) and "Monitoring" in "Monitoring Status." To schedule tasks and phone calls for follow-up, use the [Timeline/Activities section](#) and select "+" → "Task" or "Phone Call."

#### 3. We anticipate questions from contacts and would prefer those to come back to the LHD, but the information auto generated on the daily correspondence gives the CCNC call center number. We will just need to know how we will receive these questions, particularly for contact tracers who are not working full time.

The contact tracer should call the Contact Tracing Call Center (844 628 7223). The call center staff will receive the call and navigate through the CCTO tool to search for the contact. The call center staff should either document the resolution in the **notes** in the **Timeline/Activities** section or create a **Task** for the Contact Tracer to review the phone log if it is not resolvable. Contact Tracer assigned to the Contact will review the **Task** assigned to them and perform outreach (if needed). Contact tracer will then close the Task.

#### 4. Why are "Begin Monitoring Date" and "Last Assessment Date" locked?

The system automatically populates these dates based on when you begin monitoring and when the contact completes an assessment.

#### 5. How can we keep specific workplaces on our radar as well as identify if that high-risk exposure site has had any type of increase in positive activity?

Please stay tuned for forthcoming functionality on high-risk exposure sites and adhere to your local guidance on including as much information as possible in "Employer," "Job Title," "Is Student," and "School" fields.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

**6. What if a contact is exposed to more than 2 source patients during a single monitoring period?**

Consult your local guidance for best practices. You can use the "Note" functionality in Timeline/Activities to document this.

**7. How do I know the beginning and end of the monitoring period?**

The end of the monitoring period will always be two weeks (14 days) from the last date of exposure, which may change, and is not necessarily 14 days from the day you begin monitoring. This is okay. You can input and update this date in "Monitoring End Date."

**8. What does the "Monitoring Age" column mean?**

The "Monitoring Age" column shows how many days you have been monitoring a contact. For example, a "Monitoring Age" of 5 means that you have been monitoring this contact for 5 days. This is a locked field and is automatically calculated for each day that has passed.

**9. When should I turn on "Begin Monitoring"?**

"Begin Monitoring?" will begin automatic assessment creation and potentially digital outreach within the system. Always defer to your local guidance on when to use this button. You may or may not be directed to turn it on when conducting initial phone outreach.

**10. Are we able to create an LHD specific Team(s) so that the contact could be assigned to a team instead of a specific person, especially given that many contact tracers will only work certain days during the week?**

LHD-specific Teams have been instituted in the system, and you can view the contacts assigned to this "Team" by selecting the view for your team's contacts in the Contacts Tab. Defer to your local protocol on using this Team assignment feature. Stay tuned for forthcoming functionality on custom teams.

**11. Can contacts refuse to participate?**

Contacts should be encouraged to continue but may choose to opt out. You may document an opt-out by selecting "Begin Monitoring?" to "No," "Monitoring Status" to "Opted Out - All Monitoring," and "Final Monitoring Outcome" to "Refused."

**12. What should be input for the monitoring period if the date of last exposure is ongoing (i.e. a spouse)?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

Initially, the tracer can input monitoring period for 14 days after the present date. Once there is clarity around the spouse's end of isolation date, the contacts monitoring period should be updated to reflect ending 14 days after that isolation end date. Be sure to select the "Ongoing Exposure" toggle until the exposure has concluded.

**13. What should I do when I find a contact has tested positive? Will this remove them from my contacts list?**

Please review the full procedure for handling contacts who become case patients in the job aid [here](#).

**14. How do I identify my contacts that need monitoring?**

From the Contacts Tab, visit the Monitoring Status column and click the drop-down arrow. Sort A-Z. For contacts that have not begun monitoring, three dashes will be displayed in the Monitoring Status field indicating that monitoring has not started for these contacts.

**15. Do Contacts have to test positive for us to mark them as "Contacts that became Case Patients" or can we use the toggle if there is symptom development?**

You should only use this toggle if the Case has a positive test result. Please continue to monitor symptoms, but this field is for positive test results.

**16. Is there a timeframe for Leads to complete a task for a Contact that became a Case?**

There is not a set timeframe, but we are asking that within 14 days after they are entered that it is finished unless they have continued to be exposed and are continuing quarantine. We are working on a public dashboard for Contact Tracing and want to include final monitoring outcome, and we will look more into cases that are more than 14 days old.

**17. How do I find a contact in CCTO when I am missing information?**

You can search by contact name, contact info, or C#. In the Contacts Tab, set your view to "All Contacts" by selecting the bold "My Active Contacts" text and choosing from the list. This will allow you to search all active and inactive contacts owned by any user. Then, search in the upper right corner for your contact. You can use an asterisk (\*) as a wildcard to replace any text you don't know. For example, searching Peters\*n will return all contacts with last names Petersen and Peterson. Searching M\* Hansen will return Megan, Marty, and Mary Hansen. Similarly, searching \*555-0000 will return all phone numbers with

# Frequently Asked Questions

## CCTO Contact Tracing Tool

all area codes matching the digits you supply. If you are looking for a household, \*Brown\* will search all household titles and primary contacts for the word brown: Sam Brown Family, Brown Household, or a household with a primary contact of Max Brown.

18. **In the training video, contact tracers enter, monitor, and close/deactivate contacts. What if this is not the guidance from my county?**

The training video shows you the end-to-end process, and you may not be the individual taking each of these steps for your county or organization. This is fine! You should always defer to your local guidance on who should handle these processes.

19. **If someone identifies a chronic condition, do I need to call them daily?**

If someone identifies a chronic condition, make sure you record it as a note in their Timeline/Activities section. A chronic condition does not change the schedule of active monitoring: if they are not participating in digital monitoring, you would need to call them daily for their quarantine period, whether they have identified a chronic condition.

20. **Will we be able to use Teams to create pools of contacts for our LHD?**

Yes, your LHD or organization may use Teams to create a “queue” of contacts needing attention; however, you should defer to your supervisor and your local guidance to see if your Team is being used in this way.

21. **If the “ongoing exposure” is toggled on, do we ask the contact on the call if it has changed to a more recent date, thus making their quarantine extended?**

If this an ongoing exposure, in most cases it means they are living with someone who tested positive. More information should be found somewhere in that contact’s notes. You should communicate with the person managing that case to know when the case's isolation ends. Assuming this is ongoing exposure, the day the case's isolation ends would begin the 14 day quarantine for that contact.

22. **If a contact becomes a case, what NCID Event ID do we place within that box located under it in the “for public health use only”?**

It should be the NC COVID number for the contact who became the case, not the case who exposed them.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

### NCIDs

- 1. I set up my NCID with the wrong county, how can I change this? How do I get my NCID?**

Contact your county NCID administrator.

### Non-Responsive Contacts

- 1. When is a contact considered non-responsive?**

Please defer to your local protocol on when a contact can be considered unreachable.

- 2. What should I do to close the case of a non-responsive contact?**

If a contact is deemed non-responsive per the guidance provided by your local health department, you should ensure "Begin Monitoring?" is "No," "Monitoring Status" is "Monitoring Ended," and "Final Monitoring Outcome" is either "Never Reached" or "Partially Complete" depending on if the contact was reachable at one point. You can then deactivate this contact. Please refer to the [Closing Out Contacts Job Aid](#) for more information.

### Phone Outreach

- 1. When do I begin phone outreach? How often should I reach out?**

It is a best practice to begin phone outreach when you begin monitoring, even if you are also initiating digital outreach. Defer to your local protocol on outreach frequency.

- 2. How should I document that the contact has received my call?**

Use the "Call Status" ("Answered"/"Unanswered") toggle in the quick create screen or phone call record to mark whether you spoke with your contact. Note that this will form part of your call subject in Timeline/Activities. Additionally, remember that you still must click the checkmark to close your call when it has been completed and updated the "Completed"/"Cancelled" toggle if appropriate. The "Made"/"Received" toggle in the phone call close out screen is no longer functional and should be ignored. We are working to have this option removed.

- 3. How do I document when a contact calls me back?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

You can select "Direction" to "Outgoing" instead of "Incoming" in the phone call quick create screen to mark that this call came from the contact to you.

4. **Does the system calculate the length of my call? Is there a limit to how long my call can be?**

The system does not calculate the length of your call, and there is no limit to how long a call can be. You can fill the "Duration" field of the Phone call note, but it is not required by NC DHHS.

5. **Is there a link between the soft call log and this platform?**

There is no link between the Phone Outreach logging procedure in this platform and any other platform.

6. **What if my contact doesn't have a telephone?**

Conduct other methods of outreach to the best of your ability with the information that you have.

7. **What if I receive an incoming call instead of making an outgoing call?**

In the "Quick Create" screen when adding a phone call, you may always select "Incoming" instead of "Outgoing" to properly log a call.

8. **Do I have to document all my phone calls?**

Yes. It is critical that you document every call that you make individually to help us understand how contact tracing effort is being spent and what are the most effective practices.

9. **Do I have to fill out all the phone call fields?**

You should fill out any fields marked with the blue plus (+) to indicate business requirements; beyond this, please consult with your local guidance.

10. **How should I reflect a voicemail?**

Voicemails can be noted in the description of your Phone Call in Timeline/Activities, and the call can also be closed as "Unanswered."

11. **If someone hangs up on me, should I close their case?**

As best practice, we advise tracers to attempt outreach to the contact for three days before marking them as opting out and closing their case. Please defer to your local protocol on when a contact can be considered non-responsive.

# Frequently Asked Questions

## CCTO Contact Tracing Tool

12. **If a contact chooses not to use text or email for daily contact, does the health department staff or CCNC surge staff make daily calls?**

If the contact chooses to participate but not electronically, then the assigned Contact Tracer should be calling the contact daily to capture the assessment information until the end of the monitoring period.

13. **What should I do if I am having issues with my SwitchVox phone?**

Our Help Desk does not have the ability to solve Switchvox issues other than recommending reloading the program or restarting your computer. If following these steps does not resolve your issue, please contact Switchvox support using this [link](#).

- If you are asked for a password, it is "cctc"
- Navigate to "Support" and find the option to submit a ticket for SwitchVox Support.

14. **Do I have to close all my phone calls?**

Yes. When you have completed or attempted a phone call, please ensure that you have selected "Status" and "Type" in the quick create screen or phone call record, and close your call by selecting the check mark and choosing "Completed" or "Cancelled."

### Reference Materials

1. **Where and when can I access support materials?**

Training materials can always be referenced by using this [link](#).

Job aids can always be referenced by using this [link](#).

Out of Jurisdiction (OOJ) materials can be referenced by using this [link](#).

North Carolina Communicable Disease Manual can be referenced using this [link](#).

2. **Can I attend another training session? Where can I watch a live training if I missed it?**

Training materials on the AHEC Portal can be watched an unlimited amount of times. Please check your email for ongoing periodic live trainings. These training materials and recordings are also posted to the [AHEC Webinars page](#).

3. **What if I am told something different than what is shown in training by my supervisor?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

The steps shown in our training provide a full end-to-end process of what needs to occur from the state's perspective, i.e., you are shown all the steps that must take place. If your local guidance is that some of these steps must be completed by your supervisor, always defer to your local guidance. It is not necessary that you are the individual who completes every step shown if this goes against your local guidance.

- 4. Who should I reach out to if I am having trouble entering the AHEC website for training?**

Please submit these issues along with screenshots of the error message, if applicable, in a [ServiceNow ticket](#). The link to the AHEC website for CCTO training is [here](#).

- 5. Is there a training for assessments?**

Please refer to [AHEC](#) for CCTO training and the [Communicable Disease Manual](#) for contact tracing process reference materials.

- 6. Where can I find the educational information to email out to my contacts?**

Follow local protocols. You may also provide the link to DHHS COVID-19 materials for the public and the handout for contacts on the [AHEC website](#).

- 7. How do I access the Sandbox mode shown in training?**

The Sandbox link is <https://dhhs-covid19-arias-uat.crm9.dynamics.com/apps/arias>. The Sandbox and Production environments use the same credentials.

### Referring to Testing

- 1. If someone requests testing, regardless of symptoms, can I recommend them in the system? How do I handle referring someone to a test?**

You can capture that you referred someone to testing in CCTO (and you should refer anyone who is a contact for testing if they have not already been tested, regardless of symptoms). But, the CCTO system does not have functionality to electronically link someone to testing. Contact tracers should be aware of places where people can get tested locally, or contacts can be directed to use [Find My Testing](#).

### Timeline/Activities

- 1. How should I document email outreach?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

You may document manual email outreach in the Timeline/Activities section by creating a Task. For automatic assessment reminder emails, this is tracked automatically in the "All Activities" Page at the top of the screen.

### 2. What is the difference between appointments and tasks?

Appointments can be created as recurring events, while tasks are one-off items that can support a due date. Appointments are also **only** reminders, while tasks can be used to document actions such as emails or phone visits. *Do not use appointments to document phone calls, tasks, emails, or any other outreach activities.*

### 3. How do I see all the calls, appointments, and tasks I have made or scheduled in CCTO?

The Activities Tab on the left-hand side of the screen will allow you to view all the items you have entered in Timeline/Activities. Use the provided dropdowns and views to filter the information in a way that is helpful to you. The "All Activities" Page will allow you to see copies of any automatic outreach created by the system.

### 4. How should I handle assigning monitoring if I will be out?

You may assign a contact, a future task, an appointment, or a phone call to another user at any time. You do not need to re-assign a contact unless it is necessary to transfer all a person's monitoring to someone else.

### 5. May I schedule for any time?

You may schedule a task, appointment, or phone call for any time that makes sense for you and your contact.

### 6. What are tasks used for?

Tasks can be used as reminders to yourselves or be assigned to other tracers to alert them to an action they need to take. Unlike appointments, *which should only be used as reminders*, tasks can also be used to document outreach or actions taken, such as field visits.

### 7. What do I do if recurring appointments won't save?

Click "Recurring" at the top and complete the necessary items on this page (this is where you put in the start date, end date, and time of the recurring appointments) and then click "Set" (at the bottom of the page). It will then take you back to the initial appointment page and at the top click "Save and Close."

# Frequently Asked Questions

## CCTO Contact Tracing Tool

Then go back to the contact page, look in the activities column and all the recurring appointments will be there.

8. **When recording an item in Timeline/Activities, how much information and description is necessary? Do all final monitoring outcomes warrant notes on the timeline?**

Always defer to your supervisor's guidance and err on the side of providing more information rather than less whenever possible. Consider adding notes for information or logging recaps within tasks or phone calls if it documents additional outreach you conducted or anything you confirmed by talking to the contact.

9. **The phone subject space is no longer accessible, has this been locked?**

This is part of the CCTO Tool update and is an expected change.

### Contact Tracing Best Practices

1. **If a phone number is listed as potential spam, is there a way to make it display as "Department of Public Health?"**

We are testing a software-based phone system that will have a uniform ID across the board; we are working on a solution for this.

2. **If someone is tested more than once, where is the info entered?**

Currently, our recommendation is to enter multiple tests as a "Task," but please defer to your local guidance.

3. **If I don't have an address for a Contact, should I use the Case Patient's County?**

If you don't have an address, you should use the Case Patient's County. As an update, County is becoming a required field in the CCTO Tool.

4. **For Counties that only require weekly assessments, how can I ensure a Contact is only reached weekly to fill out the assessment?**

Currently, this assessment is sent daily while a Contact is being Monitored. If the Contact prefers text, you can tell the Contact to either fill them out daily or ignore the text outreach.

### Service Now

1. **How do I access the ServiceNow portal?**

# Frequently Asked Questions

## CCTO Contact Tracing Tool

To access the ServiceNow portal, please use this job aid linked [here](#).

### Softphone/Switchvox

**1. I cannot log in to SwitchVox - who do I contact for support?**

Our Help Desk does not have the ability to solve Switchvox issues other than recommending reloading the program or restarting your computer. If following these steps does not resolve your issue, please contact Switchvox support using this [link](#). You may be prompted for a password the first time you enter the website. The password is "cctc". Once on the website, you can choose to log a ticket for Phone Support or IT Support. A ticket will be logged with the Support vendor for assistance.

**2. I am having difficulty logging into Microsoft Softphone - what should I do?**

For support logging into Microsoft Softphone, please utilize the job aid linked [here](#).

### NCEDSS

**1. I cannot log in to NCEDSS, who do I contact for support?**

Please submit a ticket to DHHS, as they handle State laptop issues/NCEDSS Login Issues. Use the link provided [here](#) to submit the appropriate ticket.
